

### **Unit 1 Study Guide (Chap 2/3/5)**

- What is the IPDE process?
- How do you apply the predict step to the driving environment?
- Where do no parking zones occur?
- What do you do if a light turns yellow as you approach?
- What color are construction signs?
- What is the difference between a solid line and a dashed line?
- What is the difference between a yellow line and a white line?
- What if you have a dashed and solid yellow line?
- What is most common type of signs, shape, color?
- What does a flashing red light mean?
- What do you do if you can't see at an intersection?
- What does the basic speed law mean?
- What does a no passing sign look like?
- What does a green turn arrow mean?
- What do you do if you want to turn left at a green light?
- What does a red circle with a slash thru it mean?
- What must you do at a 4way stop?
- What gear do you start your car?
- What do you do if your brake warning light comes on?
- What does the alternator warning light mean?
- What does the brake warning light mean?
- What steps do you take when leaving the curb?

#### **Lookup the following:**

Riding the clutch, friction point, compromise space, minimize hazards, scanning, space cushion, yield right of way, blind spot

### **Unit 2 Study Guide (Chap 9,4,10)**

- Is it legal to pass a school bus when stopping for railroad tracks?
- Can you make lane changes at an intersection?
- How do you park up and downhill with a curb?
- When do you have right of way at an intersection?
- How do you negotiate an uncontrolled intersection?
- How do you perform an unprotected and protected left turn?
- The first collision is the car with another object. What is the second collision?
- What do you need to check before you make a right turn on red?
- What is the spot in which you can not stop safely?
- What are the safety requirements for children?
- What two factors affect kinetic energy?
- What is a passive and active restraint?
- How much of a gap in traffic do you need before turning?
- What is the purpose of the tread on a tire?
- What is gravity?
- What is the distance a vehicle travels while you respond to a road hazard called?
- How can over-steering affect you during a lane change?
- What is a banked curb?
- What is all wheel drive?
- What is another name for energy of motion?
- What two sign control intersections?
- What is the safest turnabout?
- How do you control speed in a turn?

Where is the chance of collision the greatest?  
What is a stale green light?  
What factors affect traction?  
What is a protected green arrow? What does it allow you to do?  
What is under-steering?  
How do you back around the corner?

### **Unit 3 Study Guide (Chap 8/9/14)**

How do you pass a large truck?  
When is traction the worst during rain? How can you improve traction?  
Why are motorcycles difficult to see?  
Where are mopeds restricted from?  
What sort of braking control problems could a motorcyclist have?  
Why is it difficult to judge a motorcyclist speed/distance?  
What do you do when you follow a motorcycle?  
What do you do if you see a stopped school bus unloading kids? What about a Pace bus?  
How do you leave an alley?  
What does the driver behind you think when you ride the brake?  
How do you make a left on a one way street?  
What is a stale green light?  
How do you change lanes? How do you pass parked vehicles on your right?  
What is space cushion?  
Where is it illegal to pass another vehicle?  
What does it mean to cover the brake?  
Where might cars make sudden stops?  
How do you handle tailgaters?  
What is the point of no return?  
What is carbon monoxide poisoning?  
How does fatigue effect your driving?  
What is depth perception?  
How can emotions effect a driver?  
What is central vision?  
What is glare recovery time?

### **Unit 4 Study Guide (Chap 15,16,12)**

What factors need to be considered in selecting a safe speed?  
List rural driving situations that require increased following distance.  
What are the steps for entering a multilane rural highway?  
List the steps for passing another vehicle.  
When shouldn't you pass?  
What is an advisory speed limit? Where might you find one?  
How do you make a left turn on a multilane road?  
Can rural roadway conditions change? What types of surfaces might you encounter?

#### **Define the following:**

Escape path  
Path of travel  
Point of no return  
Velocitation  
Wolf pack  
Highway hypnosis

Minimum speed limit  
Hydroplaning

How is a no passing zone marked?

What does a guardrail or median separate on divided roadway?

What do you do if you enter the wrong entrance ramp on an expressway?

Is it ok to change two lanes at once?

Where do you pull your vehicle to on the expressway if it's disabled?

What do you do if you have a red light at an entrance ramp?

How do you select proper gap when merging on the expressway?

When driving at night should your stopping distance be within or beyond the range of your headlights?

Why would you drive in another vehicle's tracks when it is raining?

How do you control a rear skid to the right?

Do you drive with high or low beam lights in the rain? What about fog?

Why do bridge surfaces freeze?

### **Unit 5 Study Guide (Chap 13, 17,7)**

What should you do if your car is submerged under water?

What do you do if your car stalls on railroad tracks?

How do you control your car with a tire blowout?

What do you do if your accelerator sticks?

What should you do if your brakes fail?

What would you do if your hood flies open?

If you didn't pay attention in class and you have a flat, where can you find instructions to change a tire?

What is the best way to avoid a DUI?

What are inhibitions? What is zero tolerance?

What is a DUI in Illinois for someone 21 or older?

What are depressants, stimulants, hallucinogens?

What is implied consent?

What happens when you mix prescription drugs with alcohol?

How does alcohol affect you? How does peer pressure affect you?

What is BAC, how is it measured by the police?

What is the intoxilyzer? What is the field sobriety test? What is Nystagmus?

How can you reduce your insurance rates? What is a deductible? What is a high claim insurance plan?

What is depreciation?

What is comprehensive insurance, liability insurance, and uninsured insurance?
